

# Portable battery-powered internal vibrator system ACBe

**WACKER  
NEUSON**

*all it takes!*

Ergonomic backpack by leading brand manufacturer.

Free range of motion independent of a power source.

Safe protective low voltage of 34 Volt in the converter.

Low weight (10 kg) spread across several load points.

**ACBe**

No cable in wet concrete any longer.

**IEE**

Combination with different vibrator head components is possible.

High frequency drive with stable speed for excellent compaction.

Low operating costs due to maintenance-free electric motor.

**The right solution for any application:** Vibrator head components are available in different hose lengths and vibrator head sizes.

Protective hose lengths (m)	1.5	3	5
Vibrator head diameter (mm)	38	45	58

**Removable battery:**  
simply change it or use it in another electric machine by Wacker Neuson.

**Maximum freedom of movement:**  
with the ACBe, you have everything you need for concrete consolidation.

**Battery converter backpack: goodbye to long cables.**

	Unit <sup>2</sup>	ACBe
Charging time, standard/fast battery charger	min	90/55
Battery running time <sup>1</sup>	h	up to 2
Operating weight	kg	10

<sup>1</sup> The running time varies depending on the type of application and the vibrator head components used.  
<sup>2</sup> Information refers to the battery model BP500.

Our battery-powered internal vibrator is simply connected to the battery-operated converter backpack ACBe and thus makes the concrete consolidation fully mobile.

**Strong boxes.**

For the battery of our internal vibrator system ACBe, practical transport and charging boxes from the Systainer brand are available. They give protection from soiling and damage.

Quick charging box

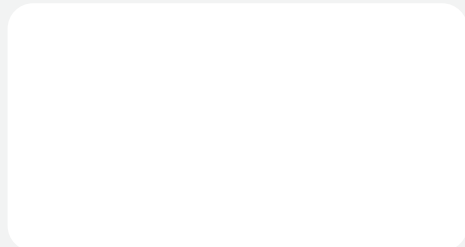

Transport box

Transport and charging box combined

**Our package recommendation for you:**

ACBe + IEe + BP500 + C4B/7
